	Page numbers
Preface	vii
1. Introduction	1
Terms of Reference	1
Actions and Action Plans	2
Contents of Report	3
The Functions and Limits of National Accounts	4
Conclusions	10
2. Measuring Government Output in the UK	11
Conventional Approach to Measuring Government Output	12
Developments over Time in ONS (and CSO) Practice	14
Technological and Institutional Change in the Public Sector	18
Measures of Government Output, Inputs and Productivity: The Key Elements	19
Inputs	20
Data Sources	21
Resource Costs of Statistics	22
Conclusions	25
3. The International Context	27
International Guidelines: UN SNA and OECD Productivity Manual	27
OECD Productivity Manual	29
European System of Accounts (ESA 95) and the Eurostat Handbook of Price and Volume Measures in National Accounts	30
Progress of Other Countries in Measuring Government Output	33
Summary	34
4. Methodology for the Future: The Principles	35
Parallel with the Private Sector	36
The Concept of Added Value in Public Services: Individual Services	39
The Concept of Added Value in Public Services: Collective Services	42
Complementarity between Public and Private Output	43
Coverage of Output Indicators	47
Geographical Coverage	48
Inputs	48
Deflators	50

Productivity and Triangulation	51
Margins of Error	54
Summary of Principles	55
5. Inputs and Deflators	57
Introduction	57
Input Measures	57
New Developments	58
Issue 1: Complex Data Flows	59
Issue 2: Data Classification	60
Data by Country and Function	63
Issue 3: Poor Data Timeliness and Periodicity	64
Issue 4: Possible Solutions Offered by COINS	66
Issue 5: Measurement of Capital Inputs to Production	67
Issue 6: Measurement of Labour Inputs to Production	70
Deflators	71
Annex	73
6. Outputs	84
Introduction	84
Introduction of New Indicators for Existing Functions	85
Treatment of Collective Elements	86
Weighting	88
Joint Products and Joint Producers	90
Quality Adjustment	91
Timing and Attribution	93
7. Implementation	96
Introduction	96
Moving from Concepts to Robust Statistical Series	96
Publishing Analysis of Public Service Output and Productivity	98
Satellite Accounts	99
International Cooperation	100
Extension to New Functions	100
Country and Regional Accounts	101
Resource Costs of Statistics	102
8. Health	103
Introduction	103
Current and Previous Methods of Output Measurement, and Critique	106
Future Methods of Output Measurement	110
Inputs and Deflators	121
Triangulation and Productivity Measurement	122
9. Education	125
Introduction	125

	Current Methods of Output Measurement, and Critique	128
	Future Methods of Output Measurement	129
	Inputs and Deflators	137
	Productivity and Triangulation	139
10.	Public Order and Safety	141
	Introduction	141
	Current Methods of Output Measurement, and Critique	142
	Future Methods of Output Measurement	146
	Incremental Improvements to the Current ONS Methodology	147
	Inputs and Deflators	155
	Productivity and Triangulation	157
11.	Social Protection	159
	Introduction	159
	Personal Social Services	159
	Administration of Social Security	163
	Current Methods of Output Measurement, and Critique	165
	Future Methods of Output Measurement	169
	Inputs and Deflators	178
	Productivity and Triangulation	180
12.	Executive Summary	182
	Summary	184
	Introduction	185
	Measuring Government Output in the UK	185
	The International Context	186
	Methodology for the Future: The Principles	186
	Inputs	188
	Outputs	189
	Implementation	191
	Health	192
	Education	194
	Public Order and Safety	195
	Social Protection	196
Appendices		
A	Consultation	198
	UK Consultation	198
	International Consultation	199
B	International Guidance	201
	Timing of Recording in National Accounts	202
	General Government Sector and Non-Market Producers	203
	Classification of Government by Function	205
	GGFC Expenditure and Actual Final Consumption	208
	General Government as a Producer	209

Valuation of Government Output	210
Measuring the Volume of Government Output	211
Capital Measures and Definitions	215
OECD Guidance on Productivity	217
Satellite Accounts	218
Glossary	221
List of Abbreviations	223
References	226
Index	230
