INDUSTRY SALES AND TURNOVER**Medical & Surgical Equipment and Orthopaedic Appliances - Industry 33100**

This table shows the relationship between the total sales of principal products of the industry and the total turnover of the companies classified to the industry.

Companies are classified to an industry according to their main production activity (principal products). The total turnover of the companies is broken down into non-production activity, split into four main heading, Net Carry-In/Carry-Out and the Total UK Manufacturer Sales of products within this industry.

Carry-In sales are defined as the sales of products classified to an industry which are made by companies classified to other industries. Conversely, Carry-out sales are the sales of products classified to other industries by companies classified to this industry.
