Office for National Statistics

12th March 2004

Dear Jean,

National Statistics Quality Review of Issues in Measuring Household Income and the Redistribution of Income

Thank you for submitting the Report of the Quality Review of Issues in Measuring Household Income and the Redistribution of Income. I am content with the Report and welcomed the proposal of setting up an Income Statistics Producers Network which I understand you have taken forward.

I will arrange for the Report to be placed on the National Statistics website and would like to thank the Review Team for all their work in the production of this Final Report.

Yours sincerely,

Len Cook
