Footnotes:

1. A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full time student in a family with parent(s).

2. The terms used to describe tenure are defined as:

Other social rented includes rented from Registered Social Landlord, Housing association, Housing Co-operative and Charitable Trust.

Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.

Living rent free' could include households that are living in accommodation other than private rented.

3. The occupancy rating provides a measure of under-occupancy and overcrowding. For example a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).

4. Car or van availability includes any company car or van if available for private use.

5. Not classified includes people who have not been coded, those who cannot be allocated to an NS-SeC category and all full-time students regardless of whether they are economically active or inactive.

6. The term 'unpaid care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems relating to old age.
