Annual Business Inquiry

2001 revised results

Revised results from the 2001 Annual Business Inquiry (ABI) covering agriculture (part), fishing, production, construction, distribution and service industries are now available.

A comparison of 2000 results with those for 2001 shows that:

- Production industries turnover decreased from £553.6 billion to £547.1 billion.
- Construction industries turnover increased from £121.5 billion to £131.1 billion.
- Distribution industries turnover increased from £730.3 billion to £757.9 billion.
- Service industries turnover increased from £566.6 billion to £614.6 billion.

Estimates of turnover	(£ bn)		
	2000	2001	Per cent change
Agriculture, hunting and forestry (see Note 4)	0.7	3.1	n/a
Fishing	0.9	1.0	9.2
Production industries	553.6	547.1	-1.2
Construction industries	121.5	131.1	7.9
Distribution industries	730.3	757.9	3.8
Service industries (see Note 6)	566.6	614.6	8.5

Estimates of approximate gross value added* at basic prices	(£ bn)		
	2000	2001	Per cent change
Agriculture, hunting and forestry (see Note 4)	0.3	1.5	n/a
Fishing	0.4	0.4	-1.5
Production industries	185.9	182.4	-1.9
Construction industries	42.3	48.0	13.5
Distribution industries	115.9	126.0	8.7
Service industries (see Note 6)	260.6	277.1	6.3

Agriculture, hunting and forestry

Data for Groups 0.14 - agricultural and animal husbandry service activities, except veterinary activities and 0.15 - hunting trapping and game propagation including related service activities were included for the first time in 2001. Forestry, logging and related service activities recorded an increase in turnover of 1.7 per cent and a decrease of 2.9 per cent in gross value added between 2000 and 2001.

Fishing

For this sector, turnover increased by 9.2 per cent and gross value added decreased by 1.5 per cent between 2000 and 2001.

Production and construction industries

In the mining and quarrying sector, turnover increased by 2.6 per cent and gross value added by 0.6 per cent between 2000 and 2001.

Manufacturing industries showed overall decreases in both turnover and gross value added between 2000 and 2001.

The largest percentage decreases in turnover occurred in the electrical and optical equipment (7.9 per cent) and textiles and textile products (7.1 per cent) industries. The largest percentage increase occurred in the wood and wood products (6.8 per cent) industry.

The largest percentage decreases in gross value added were recorded in the electrical and optical equipment (21.6 per cent), textiles and textile products (6.5 per cent) and other non-metallic mineral products (5.9 per cent) industries. The largest percentage increases were shown in the coke, refined petroleum products and nuclear fuel (28.9 per cent) and transport equipment (11.9 per cent) industries.

In the construction sector, turnover increased by 7.9 per cent and gross value added by 13.5 per cent between 2000 and 2001.

Distribution industries

Increases in turnover and gross value added between 2000 and 2001 were recorded in all industries, with increases of 3.8 per cent for turnover and 8.7 per cent for gross value added recorded for the sector as a whole.

Services industries

All sectors highlight increases between 2000 and 2001 for both turnover and gross value added. The largest percentage increases in turnover occurred in other community, social and personal service activities (10.7 per cent), real estate renting and business activities and health and social work (8.7 per cent). The largest percentage increases in gross value added occurred in health and social work (16.2 per cent) and other community, social and personal service activities (11.6 per cent).

BACKGROUND NOTES

ABI

This first release covers information collected as part of the Annual Business Inquiry. The ABI collects both employment and accounting information. This more efficient use of the sample helps to reduce the compliance burden on businesses whilst at the same time ensuring that these two sets of data are consistent. This inquiry replaced the various annual inquiries sent to industry for 1997 and earlier.

ABI Updates

1. It was previously announced that regional estimates for the years 1998-2001 consistent with this release would be published on 24 July 2003. This has been postponed until 23 September 2003 to allow an orderly release of Regional Accounts and the data on which it is based. Release of regional data for 1997 has been delayed until further notice.
2. The retail commodities and quality measures pages on the ABI web pages are being updated to include data for 2001 and revised data for 2000.

Discontinuities

3. Within Division 50 (motor trades) there is a discontinuity between 2000 and 2001 data. This is due to the reclassification of several businesses from Division 50 in 2001. Without these reclassifications it is estimated that 2001 data would be around 3-4 per cent higher. As the businesses are being reclassified outside of the classifications covered by the ABI Financial data there is no equivalent discontinuity elsewhere in the data.

Coverage

4. The results in this first release cover approximately two thirds of the UK economy and cover agriculture (part), fishing, production, construction, distribution and service industries. The presentation is in line with the Standard Industrial Classification SIC(92). The sectors covered are:

Agriculture, hunting and forestry	Section A (Groups 01.4 and 01.5 2001) (Division 02 2000 and 2001) only
Fishing	Section B 2000 and 2001 only
Production Industries	Sections C-E
Construction Industry	Section F
Distribution Industries	Section G
