Overseas travel and tourism June 2007

In the three months to June 2007, compared with the previous three months, the seasonally adjusted results from the International Passenger Survey showed that:

- Overseas residents' visits to the UK decreased by 3 per cent to 8.1 million
- Overseas earnings decreased by 3 per cent to £3.9 billion
- UK residents' visits abroad decreased by 4 per cent to 16.8 million
- UK residents' expenditure abroad decreased by 4 per cent to £8.7 billion

Overseas residents' visits to the UK and UK residents' visits abroad by month seasonally adjusted

Overseas visitors to the UK

The estimated number of overseas residents' visits to the UK, seasonally adjusted, in the three months to June 2007 decreased by 3 per cent to 8.1 million compared with the previous three months but remained broadly the same when compared with the three months to June 2006.

The total number of overseas residents' visits to the UK, not seasonally adjusted, increased by 8 per cent during the 12 months ending in June 2007 compared with a year earlier (from 30.8 million to 33.2 million). This was as a result of the number of visits from Europe increasing by 8 per cent (to 23.9 million), visits from North America increasing by 5 per cent (to 4.7 million) and visits from other parts of the world increasing by 11 per cent (to 4.7 million). (Tables 1 and 2)

UK residents' visits abroad

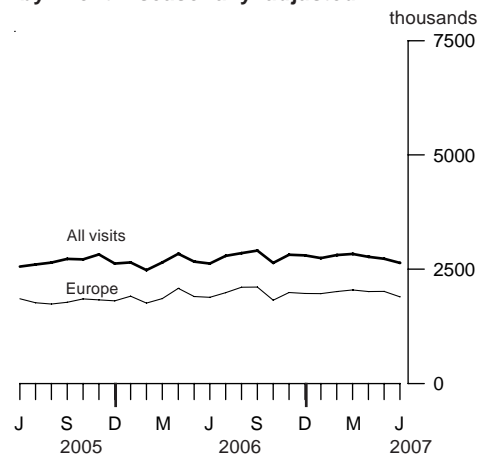

The estimated number of UK residents' visits abroad, seasonally adjusted, in the three months to June 2007 decreased by 4 per cent to 16.8 million compared with the previous three months and decreased by 6 per cent when compared with the three months to June 2006.

The total number of UK residents' visits overseas, not seasonally adjusted, increased by 2 per cent during the 12 months ending in June 2007 compared with a year earlier (from 68.1 million to 69.5 million). This was a result of the number of visits to North America increasing by 2 per cent (to 4.7 million), visits to Europe increasing by 1 per cent (to 54.7 million), and visits to other parts of the world increasing by 9 per cent (to 10.0 million). (Tables 1 and 3)

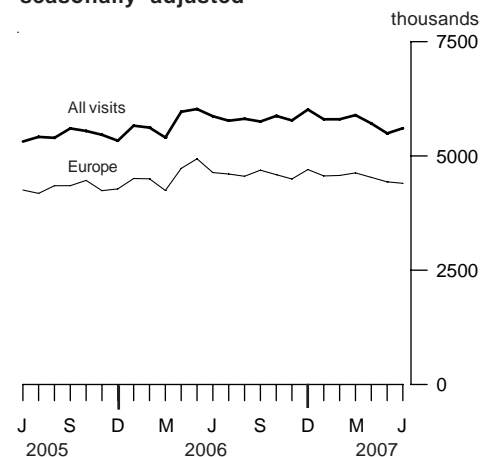

Overseas earnings and expenditure

Comparing the three months to June 2007, seasonally adjusted, with the previous three months, total spending by overseas visitors to the UK (earnings) decreased by 3 per cent to £3.9 billion and spending by UK residents overseas (expenditure) decreased by 4 per cent to £8.7 billion. This resulted in a deficit to the UK of £4.8 billion, compared with £4.6 billion in the three months to June 2006.

Overseas residents' visits to the UK by month seasonally adjusted

UK residents' visits abroad by month seasonally adjusted

During the 12 months ending June 2007, not seasonally adjusted, overseas earnings increased by 10 per cent to £16.2 billion and expenditure by UK residents increased by 6 per cent to £35.0 billion compared with the previous year. This resulted in a deficit to the UK of £18.8 billion compared with £18.3 billion during the same period to June 2006. (Table 1 and 4)

BACKGROUND NOTES

1. The figures in this First Release are based on provisional results from the *International Passenger Survey (IPS)*. The IPS is a sample survey and therefore the results are subject to sampling errors. Detailed analyses for Quarter 4 of 2006 may be obtained from the publication *MQ6 Overseas Travel and Tourism*. Further information and a full breakdown of the figures for 2005 can be obtained from the annual report, *Travel Trends* (ISBN 1-4039-9309-0) which was published on 8 November 2006. *Travel Trends* and *MQ6 Overseas Travel and Tourism* and a compact dataset, *Travelpac* (giving a selection of variables drawn from the survey) are available from the National Statistics website, www.statistics.gov.uk.
2. The main series are seasonally adjusted. This aids interpretation by identifying seasonal patterns and smoothing them out of the unadjusted data. The resulting figures give a more accurate indication of the underlying trend.
3. Figures for the most recent months are provisional and subject to revision in light of (a) more accurate data on passenger figures becoming available at the end of each quarter and (b) additional passenger data obtained at the end of the year and the subsequent revisions to seasonally adjusted estimates that these entail. Non seasonally adjusted data have been revised for previously adjusted time periods. The seasonally adjusted estimates have been revised along the length of the datasets to ensure that both non seasonally adjusted and seasonally adjusted estimates are on a consistent basis.

With the introduction of Liverpool and Prestwick into the International Passenger Survey Sample from January 2005, methodology was changed to address a discontinuity in results in regional visits to the UK. Details can be found at : http://www.statistics.gov.uk/about/methodology_by_theme/gini/Int_passenger_survey.asp.

4. Please note that all estimates, including revised estimates, are based on a sample survey and are therefore subject to sampling and other sources of error. Further information on ONS revisions policy can be found at:

<http://www.statistics.gov.uk/cci/article.asp?ID=793>

5. With the enlargement of the European Union in May 2004 and again in January 2007, there is considerable interest in the number of visits to the UK from these accession countries. From 25 April 2007, additional information on the enlarged European Union is provided in addition to the regular series.

6. This first release contains revisions to estimates relating to 2006 which are mainly due to having received revised information from the CAA (Civil Aviation Authority) relating to the numbers of interliners arriving at UK airports. Interliners are people who arrive in the UK solely to change planes and then fly on to another destinations and do not cross the IPS counting line or go through passport control and their numbers are removed from the total numbers of passengers arriving in and departing from the UK. Revisions to quarter 1 2007 are due to having more reliable quarterly information and are a normal feature of the reporting of these data.

7. Abbreviations used in the tables:

NA not available
SA seasonally adjusted
NSA not seasonally adjusted
† point of earliest revision
¹ estimate (rounded to nearest 10,000 visits or £5 million)

8. Geographical areas:

North America:

Canada (including Greenland and St Pierre et Miquelon),
USA (including Puerto Rico and US Virgin Islands).

Europe:

All countries listed under EU27 plus other central & eastern Europe, North Cyprus, Gibraltar, Iceland (including Faroe Islands), Norway, Switzerland (including Liechtenstein), Turkey, the former USSR and the states of former Yugoslavia.

EU15:

Austria, Belgium, Denmark, France (including Monaco), Finland, Germany, Greece, Irish Republic, Italy (including San Marino and Vatican City), Luxembourg, Netherlands, Portugal (including Azores and Madeira), Spain (including Canary Islands, the Balearic Islands and Andorra) and Sweden.

EU27:

As for EU15 plus, Bulgaria, Cyprus (see * below), Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Romania, Slovakia and Slovenia.

* Only the south of Cyprus is a member of the EU but the IPS is unable to separate North and South Cyprus for the period before May 2004 and so all of Cyprus is included in the EU27 section until May 2004. From May 2004, only southern Cyprus is included in the EU27 figures. Where Cyprus is shown separately in a table the figures relate to the whole island.

9. Constituent items in the tables may not add exactly to totals due to rounding.

10. Details of the policy governing the release of new data are available from the press office. Also available is a list of the names of those given pre-publication access to the contents of this release.
11. **National Statistics** are produced to high professional standards set out in the National Statistics Code of Practice. They undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political interference. © Crown Copyright 2007.
